Application No.

Continuation of 5. does NOT place the application in condition for allowance because: Applicant argues that Hayashi fails to disclose a "third coating covering side faces of said main wiring layer." Merriam-Webster Online Dictionary defines "side" as a line or surface forming a border. Additionally Merriam-Webster Online Dictionary defines "cover" as to appear here and there on the surface thereof. Therefore, Hayashi does disclose a third coating part (23) covering side faces of the wiring layer (26) (For Example: See Figure 13).
